

AmJBioDfn

American Journal of Biological Defense®

ISSN 1941-4048

AmJBioDfn.Org

Company History

In 2009 we were acquired by and registered as an official trademark of the Olisa Foundation—a private Texas nonprofit corporation with offices in El Paso, Texas; Washington DC; Abuja, Nigeria and Addis Ababa, Ethiopia. Currently, the evolution of **American Journal of Biological Defense** or **AmJBioDfn** started with humble beginnings in San Diego CA in 1998 when we were founded as the Biological Agents Company as a sole proprietorship of former US Naval Chemical Biological and Radiological Defense (CBRD) Officer— Nzedegwu Olisa. Soon afterwards we incorporated in Washington DC in 2000 as the Biological Agents Professional Corporation. During this time—believing that key to mitigating cross-border infectious and communicable disease outbreak and associated public health concerns would require biologic and macroeconomic interventions that change human behavior, we sought and received ISSN and US Trademark protection from both the US Library of Congress and US Patent and Trademark as an Open-Source, Peer Reviewed Periodic Academic online **Health Security** journal specializing in publishing **Evaluation, Efficacy and Impact Research** in the emerging and holistic field of **Contagion Risk Management**. Separately, *Biological Agents® Index remains in use as our proprietary free AI-Insilco tool for bioinformatics and public health capacity building. See US Copyright(s) TXu001101217;TXu001597164 ; TXu001068657.*

Furthermore, some of the interdisciplinary research that meet our publication criteria include the following: **Macroeconomics; Public Health; Public Policy; International Affairs; International, Humanitarian and Finance Law; Finance and Banking; Computer Science; Media and Journalism; Sociology; Education; Psychology; Medicine; Food Science and Biotechnology.**

Finally, but interestingly, in the early years, Biological Agents Company researched and developed medicines and AI that formed the current backbone of our company. Significantly, **Olisferrol® (Braunmycin)**, and to build public capacity in the field of health security, **AmJBioDfn | AI** powers **Biological Agents® Index** (BAI) online infectious disease surveillance and a periodic Health Security manual available at www.biologicalagents.com. To conclude, we strive for and maintain an internationally diverse Editorial Board of experts.

Editorial Board Members

June 02, 2024

1. Nzedegwu Olisa

Degrees: PhD, MPA, MS, BSc (hons).

Status: Peer Reviewer | Publisher | Co-Chair, Editorial Board

Health Security Specialty:

Science and Technology, Health Economics and Public Policy

Subspecialty: Healthcare Finance and Biotechnology

Affiliation: The Olisa Foundation

Short Bio:

Retired US combat Veteran and Lieutenant Commander, Medical Corps, United States Navy and worked as former Chemical Biological and Radiological Defense (CBRD) Officer for US Department of Defense. Author, Biological Agents Index: Health Security Manual. Currently, Founder, The Olisa Foundation; American Journal of Biological Defense and El-Paso Sub-Saharan Africa Union (ESAU) Chamber of Commerce. Former Adjunct Professor, Microbiology at Prince George County Community College Largo Maryland United States.

Distinctively, in the US and worldwide, was awarded first small utility patent in genomics/proteomics for Braunmycin antibiotics discovery and invented current Insilco online artificial intelligence (AI) biological defense standard. Graduated from Howard University, Washington DC; Institute of Policy and Economic Development and Graduate School of Biomedical Sciences both at University of Texas at El Paso; also, University of Jos, Nigeria. Hold undergraduate and advanced degrees in Medical Microbiology and Immunology, Molecular Biology and Public Health Administration.

Additionally, appointed National Institutes of Health (NIH) Graduate Biomedical Research Scholar and Awarded Charles F. Ireland Post Graduate Research Prize (first place) from Howard University School of Medicine in addition to Post- Doctoral Fellow in Microbial Drug Resistance at the Institute of Membrane Physiology University of Tubingen Germany. Volunteered for the Peace Corps to teach English and College of American Pathologists as a CLIA auditor. My hobbies include fine art selection, cross country jogging and coddling.

2. Medhanit Abrham
Degrees: LLB, LLM, MBA
Status: Peer Reviewer | Managing Editor | Co-Chair, Editorial Board
Health Security Specialty: Law and International Affairs
Subspecialty: Conflict, Displacement, Banking and Finance
Affiliation: The Olisa Foundation
Short Bio:

3. Mark Halam
Degrees: MS, MS, BSc
Status: Peer Reviewer | Associate Publisher-Outreach
Health Security Specialty: Media and Journalism
Subspecialty: Supply Chain Logistics, Information Systems and Finance.
Affiliation:
Short Bio:

4. Richard O Brien
Degrees: MS, BA
Status: Peer Reviewer | Associate Publisher-Outreach
Health Security Specialty: Public Policy and International Affairs
Subspecialty: Housing Finance, Conflict and Displacement
Short Bio:

5. Morgan English
Degrees: JD, MS, BA
Status: Peer Reviewer | Editor In Chief | Counsel
Health Security Specialty: Law, Media, and Journalism
Subspecialty: Communication and Intellectual Property Law
Affiliation:
Short Bio:

6. Theodora Skoura
Degrees: Bch.D, MBA
Status: Peer Reviewer.
Health Security Specialty: Medicine and Health Economics
Subspecialty: Public and International Health
Affiliation:
Short Bio:

7. Bocar Ahmadou
Degrees: PhD
Status: Peer Reviewer.
Health Security Specialty: Science and Technology and International Affairs
Subspecialty: Food Security and Education
Affiliation:
Short Bio:

8. Patricia Lar
Degrees: PhD, MS, BSc(hons)
Status: Peer Reviewer.
Health Security Specialty: Science and Technology
Subspecialty: Biotechnology and Education
Affiliation: University of Jos, Nigeria
Short Bio:

9. Martin Morse
Degrees: MD, BS
Status: Peer Reviewer.
Health Security Specialty: Medicine
Subspecialty: Military Medicine and International Health
Affiliation:
Short Bio

10. Kassa Michael
Degrees: PhD, D. Ed
Status: Peer Reviewer.
Health Security Specialty: Science and Technology
Subspecialty: Artificial Intelligence, Education and Finance
Affiliation: Addis Ababa University, Ethiopia
Short Bio:

11. Yining Xie
Degrees: MD, PhD
Status: Peer Reviewer.
Health Security Specialty: Medicine
Subspecialty: International Healthcare and Education
Affiliation: American Journal of Biological Defense
Short Bio:

12. Sankha Basu
Degrees: MD, PhD, BS
Status: Peer Reviewer
Health Security Specialty: Medicine and Science and Technology
Subspecialty: Pathology and Pharmacology
Affiliation:
Short Bio:

13. Reggie B. O'Hara
Degrees: PhD, MSc, BS
Status: Peer Reviewer
Health Security Specialty: Science and Technology
Subspecialty: Military Biotechnology
Affiliation:
Short Bio:

14. Darren Kasai
Degrees: PhD, MHA, MA, BA
Status: Peer Reviewer
Health Security Specialty: Health Economics and Public Policy
Subspecialty: Healthcare Finance and Education
Affiliation:
Short Bio:

15. Thomas Halder
Degrees: PhD
Status: Peer Reviewer
Health Security Specialty: Science and Technology
Subspecialty: Biotechnology
Affiliation:
Short Bio:

16. Fredderick Ayivor
Degrees: PhD, MS, BSc
Status: Peer Reviewer
Health Security Specialty: Science and Technology
Subspecialty: Artificial Intelligence and Finance
Affiliation:

AmJBioDfn.Org

Short Bio:

17. Jennifer O'Connell

Degrees: PhD, BA

Status: Peer Reviewer

Health Security Specialty: Behavioral Sciences

Subspecialty: Psychology

Affiliation:

Short Bio:

18. Paul-Simon Handy

Degrees:

Status: Peer Reviewer

Health Security Specialty: Public Policy and International Affairs

Subspecialty: Food Security, Conflict and Displacement

Affiliation(s): Institute for Security Studies

Short Bio:

19. Jason McCormack

Degrees: PhD, MS, BS

Status: Peer Reviewer

Health Security Specialty: Banking and Finance

Subspecialty: International Trade and Commerce

Affiliation(s):

Short Bio:

20. Zuweina Kondo

Degrees: MBBS

Status: Peer Reviewer

Health Security Specialty: Medicine

Subspecialty: Public and International Health

Affiliation:

Short Bio:

21. R. Nanre Nafziger

Degrees: PhD, MSc, MEd, BA

Status: Peer Reviewer

Health Security Specialty: Public Policy, Health Economics and Behavioral Sciences

Subspecialty: Cultural Values and Education

AmJBioDfn.Org

Affiliation:

Short Bio:

22. Clement A. Meseko

Degrees: DVM, PhD

Status: Peer Reviewer

Health Security Specialty: Medicine, Science and Technology

Subspecialty: Veterinary Medicine and Biotechnology

Affiliation: National Veterinary Institute, Vom, Nigeria

Short Bio:

Nzedegwu Robert Olisa, III, PhD, MPA
Publisher and Chair, Editorial Board
